aiTimelog

MANAGEMENT OF ATTENDANCE PLATFORM FOR MANUFACTURING BUSINESSES

aiTimelog

Management of attendance platform which deploys artificial intelligence technology and processes data standardize the process of managing employees' working time.

KEY HIGHLIGHTS

512-dimensional image recognition technology, with the accuracy of
99.99%

Timekeeping is faster than traditional methods
x6 time

15+
Organized management of working calendars for divisions and employees

30+
Comprehensive multidimensional reports covering attendance, overtime, and employee fluctuations

BENEFITS FOR CUSTOMERS

Reduced psychological pressure on workers through smart facial recognition

Unified attendance management on a single platform

Flexible personnel allocation based on detailed multidimensional reports

PLATFORM FUNCTIONS

Centralized System Management: Easily manage working calendars, divisions, and employee information with a few simple steps

Multidimensional Reporting: Access real-time, monthly, quarterly, and yearly attendance and fluctuation reports

Ready to Integrate: Seamlessly connect with human resource management software and access control devices

Cloud Camera System Management: Integrate popular IP cameras and manage camera systems via a cloud platform

IDEAL CUSTOMERS

Our platform is suitable for manufacturing businesses that:

Employ a large workforce (500 or more)

Spend considerable time and effort on manual data synthesis (working hours, leave, lateness, etc.)

Frequently face timekeeping fraud

Aim to digitize operations as part of their digital transformation journey

SMART MANAGEMENT

1. Management of Working Calendars:

▸ Easily set monthly, quarterly, and yearly schedules for employees and divisions

▸ Distribute shifts evenly among divisions and employees

▸ Instantly update calendars with employee working hours, vacations, and holidays

▸ Track employee attendance in real-time

2. Management of divisions, personnel

▸ Maintain orderly management of divisions at all levels

▸ Update division employee information daily, weekly, monthly, and yearly

▸ Monitor fluctuations to stay informed about personnel situations
